# Hieu Le

Full-Stack Developer · Ho Chi Minh City

## SUMMARY

Full-stack developer with 3+ years of experience. I build products end to end: web apps, mobile apps and the backend that keeps them running, most recently for a crypto app with **200K+ users**.

## EXPERIENCE

### KVY Technology — 2025 – now

*Software Engineer*

Cerebro (cerebro.xyz) · *crypto portfolio tracker* — 2025 – 2026

- Built the Next.js web app and Node.js backend as it grew to **200K+ users** and **7K+ daily active users**.
- Integrated **8 exchanges** and **6 on-chain platforms** for data collection, plus its admin dashboard.

Sway (sway.fun) · *narrative trading app* — 2026 – now

- Built reward settlement: payout backend, Solidity claim/clawback contract on Arbitrum, drift alarms.
- Moved trade fills into a standalone NestJS stream service with per-tenant queues and lag alerts.
- Wrote a Rust gateway that budgets the exchange rate limit across services and streams prices.
- Built notifications end to end, from risk alerts to the Expo inbox, plus wallet and P&L screens.

### Madeezi — 2025 – 2026

*Freelance Developer*

GreenMaster Go (lthieu.dev/work/greenmaster) · *field-service app*

- Delivered the Rails API, React admin and Expo app for **3,800+ customers** and **200 technicians**.
- Implemented visit sign-off on the technician's phone by signature or a Zalo/SMS one-time code.

### BenKon — 2023 – 2025

*Front-end Intern → Software Engineer*

- Re-architected the admin dashboard, cutting page load time by **30%**.
- Shipped the BenKon App and Surface App for device control and meeting rooms, plus a CMS and i18n.
- As an intern, created an interactive floor-plan and equipment layout editor in React and SVG, solo.

## PROJECTS

EngCoach (github.com/lthieu96/engcoach) · *Next.js, Supabase, AI SDK*

- AI coach for workplace English: writing corrections, spaced-repetition flashcards, voice roleplay.

Chat Polish (github.com/lthieu96/paseo-chat-polish) · *Paseo plugin*

- Redraws the agent chat, with themes, a live-preview dashboard and interactive HTML pages.
